

*"This isn't sitting around the campfire roasting marshmallows acoustic; It's music more suited for better yet burning, hotdogs in the parking lot at a Tractor pull. This is turbo charged acoustic."*

- Don Zelansy [AmericanaRoots.com](http://AmericanaRoots.com)

*"Mat reminds me of a young Steve Earle with a more powerful set of pipes. His songs are funny, crusty, dirty glimpses into an America out beyond the strip malls. The subjects of his songs flash by like memories of a road trip, with recurring themes of faith, cynicism, and finding what love the world throws at us."*
